

# eCADSTAR Discovery Roadshow 2020

- 10:00 *Registration and refreshments*
- 10:15 *Overview of the program packages and roadmap*
- 10:30 *Licensing, configurations and user interface*
- 10:45 *Library Management – online web part download and IPC-7351B*
- 11:15 *MCAD and ECAD bidirectional data exchange*
- 11:45 *Creation of hierarchical circuit diagrams with variants*
- 12:15 *Lunch Break*
- 13:15 *Annotation, placement, routes, production optimization*
- 14:00 *High-speed, impedances, differences in length, transit time and topologies*
- 14:30 *Coffee Break*
- 15:00 *Signal Integrity and Power Integrity Advanced - Analysis and Verification*
- 16:00 *Create manufacturing and service documents from your PCB design data*
- 16:15 *Migrating CADSTAR libraries, circuit diagrams and PCB layout data*
- 16:30 *Discussions and development requests*
